

TITLE OPERATIONS MANUAL	STANDARD INSTRUCTION 02	DEPARTMENT FIRE	
SUBJECT FIRE SUPPRESSION: LOGISTICS	SECTION 06	PAGE 1 of 3	EFFECTIVE DATE 11/01/06

VI. LOGISTICS

A. Implementation:

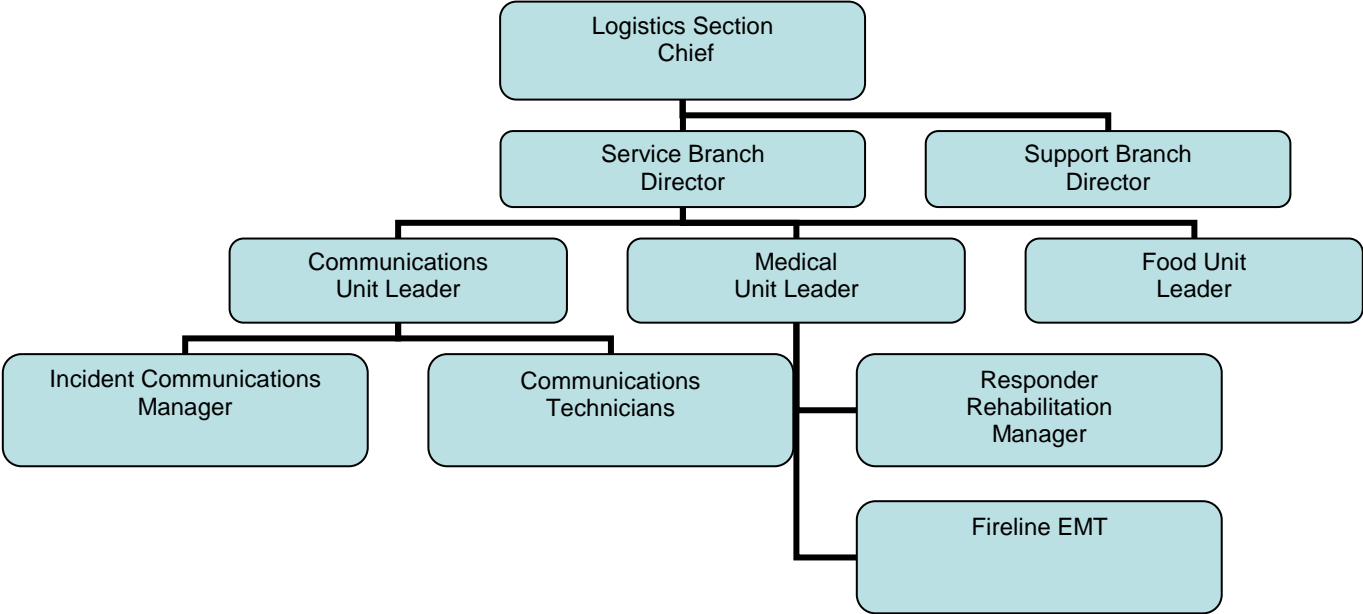

A Logistics Section Chief should be established to manage Logistical Support at an emergency incident when extended operations or increased Support Services are necessary. The IC shall designate a Logistics Section Chief who answers directly to the IC. The need for logistical support will vary with each incident. The Logistics Section Chief is responsible for establishing a support system to provide facilities, services, and material in a support system tailored for a specific incident.

A Logistics Section Chief can be requested through FCC to be provided by the Deputy Chief, Support Services, the Incident Management Team, or from the USAR Team.

B. Organizational Chart for Command, Control and Communications:

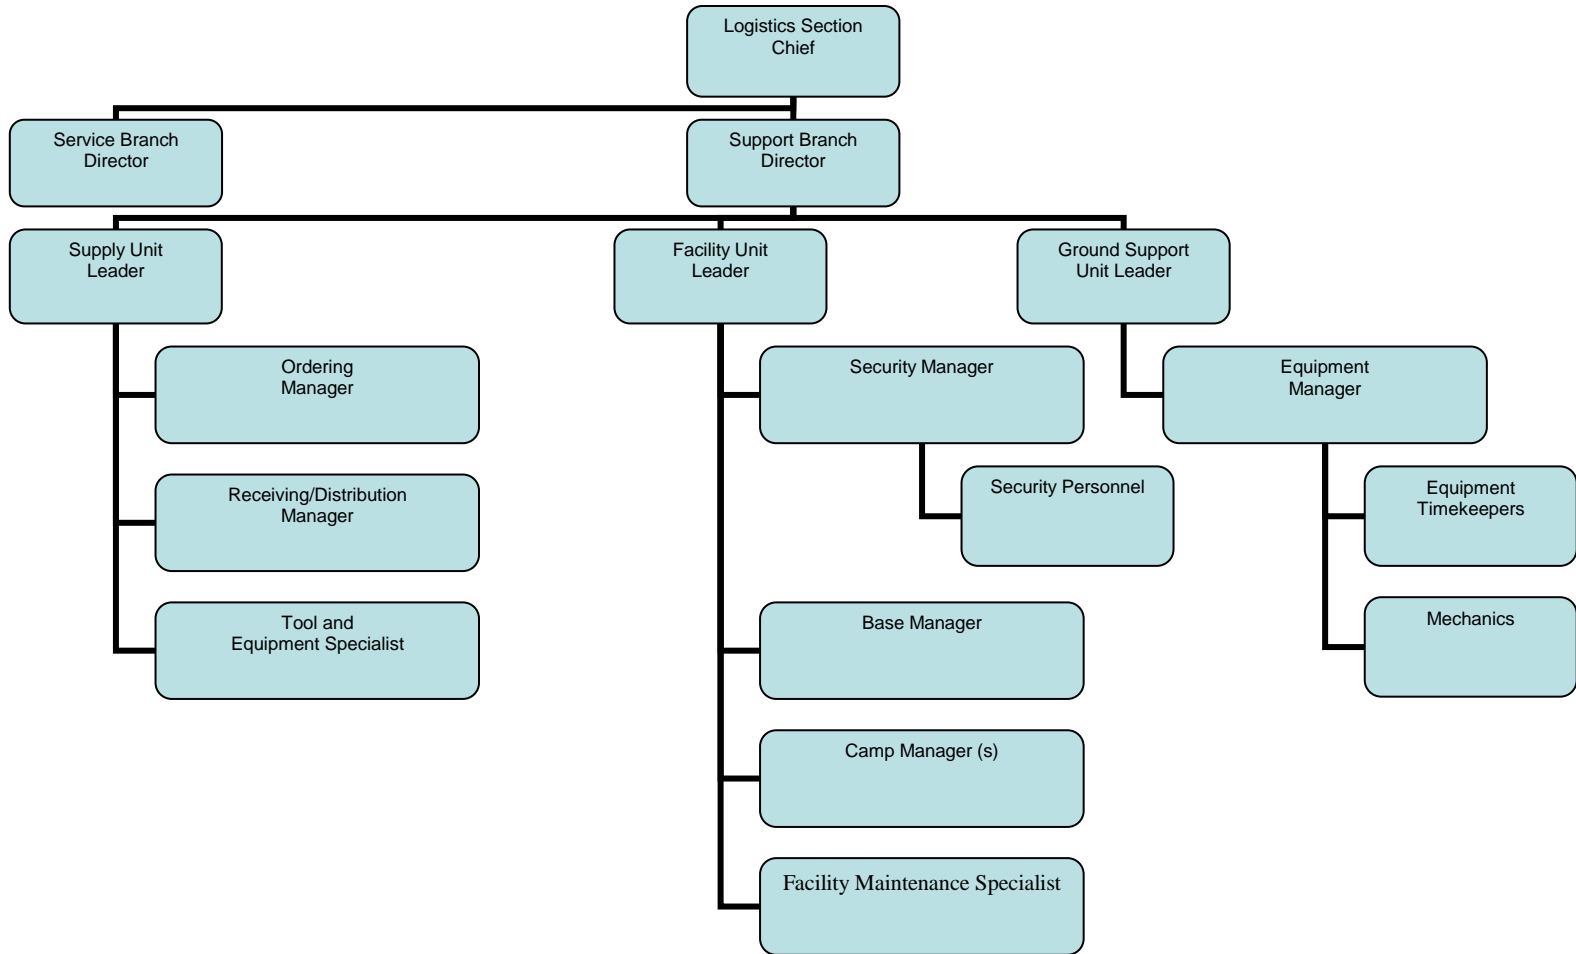

The following diagrams show Logistics Service and Support Branches in an ICS organization. Both positions report directly to the Logistics Section Chief. Activation of individual positions will vary with needs for each separate incident. Reference: See Firescope, Field Operations Guide, Logistics section for a description of each position responsibilities.

SERVICE BRANCH

D. Ordering of Support Requirements:

The IC or Logistics Officer may request support items needed through:

1. Fire Communications Center.
2. The Department Operations Center, with possible further request through the City Emergency Operations Center.
3. The Logistics Officer may make direct contact with the support provider if pre-placed contracts have been established.
