## BACKGROUND

In order to rapidly and accurately identify grouped (Strike Team - Task Force) resources used on multi-agency incidents throughout California, it is necessary to have a standard resource designation system. To ensure standardized training and use, this system will be included in both MACS and ICS procedures.

The Resource Designation System described in this document is the result of intensive research and testing by the FIRESCOPE Program. The system is designed to meet current and projected statewide needs.

## BASIC SYSTEM DESIGN

The system is based upon the application and combined use of:

- Three (3) letter designators for individual agencies and mutual aid operational areas.
- Four (4) digit "block numbering" for six (6) mutual aid regions with sub-blocks for operational areas and agencies capable of fielding grouped resources.
- Permanently assigned block numbers will allow for identification of mutual aid region, operational area, or single agency and numbering of grouped resources without duplication of numbers.
- Alphabetical lettering is used to identify kind and type of Strike Teams.
- System is compatible with manual or electronic format.

## DEFINITION OF TERMS

Single Resources – A single increment of any resource, considered fully operational when it has minimum numbers of personnel, equipment, etc. Example: A single crew, engine, dozer, helicopter, etc.

Task Force – A Task Force is a group of resources with common communications and a leader. Task Forces formed by agency or area dispatch centers will be designated from block numbers. If formed at the incident, they will be designated by incident name (i.e., "Sage TF 1".) Task Forces will be disassembled when the need no longer exists.

Strike Team – A Strike Team is a group composed of five (5) of the same kind and type of resources, with common communications and a leader. Strike Teams may be assembled by a Regional Fire and Rescue Coordinator, Operational Area Fire and Rescue Coordinator, agency dispatch centers, or at the incident. Strike Teams will be assigned numbers from a block of numbers pre-established for each operational area or agency. These numbers will be assigned sequentially. Strike Teams will be released when no longer needed and returned as a unit to the incident, area, or department from which they were formed.

Three-Letter Designators – The three-letter designator is used to identify individual agencies or operational areas dispatching resources. All fire departments, agencies and mutual aid operational areas in California have been assigned a three-letter designator. (Refer to the FIRESCOPE Field Operations Guide – ICS 420-1 for a current list of Agency Three Letter Designators)

Resource Numbers – Numbers assigned to resources for ease of tracking and communication. Numbers will define resource type and configuration.

Single Resources – Single Resources will always use their agency assigned equipment number, or in the case of a crew, it may be a crew name and number.

Mutual Aid Regions – The 58 counties in California are divided into six (6) mutual aid regions. Such regions are common to all emergency services. Each has a designated Regional Fire and Rescue Coordinator and dispatch center.

Operational Area (Mutual Aid Operational Area – Each county in California is an "Operational Area" with a designated Fire and Rescue Coordinator. EXCEPTIONS: (1) Los Angeles County has six (6) operational areas identified alphabetically; (2) Tahoe Basin Operational Area includes parts of three counties in California and parts of three counties in Nevada. (Refer to the FIRESCOPE Field Operations Guide – ICS 420-1 for a current list of Operational Area Three Letter Designators)

California Department of Forestry and Fire Protection (CAL FIRE) Administrative Regions – The California Department of Forestry and Fire Protection has divided the state into two (2) geographic regions, four (4) areas, twenty-one (21) administrative units and six (6) contract counties. CAL FIRE will assign radio numbers to be used with their three-letter Unit identifier to designate their resources.

## **FORMING AND DESIGNATING STRIKE TEAMS AND TASK FORCES**

Strike Teams and Task Forces can be formed and designated in the following ways:

By a single agency (agency owned resources) - The agency three-letter designator will precede agency's block number.

Mixed Agency - Local resources formed by Operational Area Fire and Rescue Coordinators will be designated with respective operational area three-letter identification and block number. NOTE: Mixed federal and state forestry resources may be designated by either agency. (A discretionary decision.)

California Office of Emergency Services (Cal OES) Resources - These will be formed and designated by Operational Area, or Region Fire and Rescue Coordinators. Three-letter "OES" designator will precede block numbers. NOTE: Cal OES and local resources should not be mixed without Cal OES approval.

Mixed Operational Area - Local resources formed from two (2) or more operational areas will have a designator assigned by the Operational Area providing the strike team leader.

Out-of-State/Private Resources - Resources requested from out-of-state, (i.e., EMAC, federal agencies, or private resources) will be designated by the agency that requests them.

By a combination of administrative units within same agency:

- California Department of Forestry and Fire Protection (CAL FIRE) - Combined resources from two (2) or more administrative units will be identified by the CAL FIRE unit providing the strike team leader.
- U.S. Forest Service - Combined resources of two (2) or more forests will be identified by the forest forming the strike team using its designator and block numbers.
- Cal OES or local resources formed from two (2) or more mutual aid operational areas will be identified by the operational area providing the strike team leader.
- At the Incident - Strike Teams or Task Forces assembled at the incident will be identified by incident name for the radio call sign, and sequentially numbered beginning with one (1).

**ASSIGNING STRIKE TEAM/TASK FORCE NUMBERS**

The Resource Designation System utilizes the block numbering concept. All numbers include four (4) digits followed by a single letter (i.e., 1234-A.) Numbers and letter indicate: mutual aid region, agency, or operational area, individual group numbers, kind and type of resources.

NOTE: Circumstances dictate a modification for CAL FIRE – see second example below.

**BLOCK NUMBERS** - The six (6) mutual aid regions will consist of six blocks of 1000 numbers each:

Example: Mutual Aid Region I - 1000 to 1999.

Sub-blocks (i.e., 1000 to 1099) may be assigned to operational area or a large single agency such as Los Angeles City Fire Department, thus, four (4) digits reflect:

Area or Agency	Region	Operational Area	Grouped Resource Number	Kind and Type
LFD	1	0	01	A

Any series of numbers within a region block becomes synonymous with the area or department to which it is assigned.

**BLOCK NUMBERS** (California Department of Forestry and Fire Protection)

Because CAL FIRE utilizes a four (4) digit resource numbering system daily within its administrative regions, mutual aid region block numbers might be duplicated. Thus, CAL FIRE will utilize a modified block number in the 9000 series statewide. Example: 9110 - 9119 block assigned to CAL FIRE Mendocino Unit.

Agency	CDF	Region	Unit	Grouped Resource Number	Kind and Type
CAL FIRE	9	1	1	1	C

**STRIKE TEAMS ALPHABETICAL LETTERING - KIND AND TYPE**

Kind and type of resources (identified in ICS 020-1 Resources Listing) are identified by a single letter following block numbers. (i.e., LFD ST 1001-A)

- |                   |                |                 |
|-------------------|----------------|-----------------|
| A. Engine type 1  | G. Crew type 1 | K. Dozer Type 1 |
| B. Engine type 2  | H. Crew type 2 | L. Dozer type 2 |
| C. Engine type 3  | I. Reserved    | M. Dozer type 3 |
| D. Engine type 4  | J. Reserved    | N. Reserved     |
| E. Engine type 5  |                | O. Reserved     |
| F. Engine type 6  |                |                 |
| FF. Engine type 7 |                |                 |

P. through Z. Not assigned - reserved for expansion.

- |                         |                      |
|-------------------------|----------------------|
| AR. US&R Company type 1 | GR. US&R Crew type 1 |
| BR. US&R Company type 2 | HR. US&R Crew type 2 |
| CR. US&R Company type 3 | IR. US&R Crew type 3 |
| DR. US&R Company type 4 | JR. US&R Crew type 4 |

**THREE-LETTER DESIGNATOR vs. RADIO CALL SIGN** - The primary purpose of the three- letter designator is to identify agency or area resources.

EXAMPLE: Recorded Designator: XOR ST 1400-A  
Radio Call Sign: "Orange County Op Area strike team fourteen hundred-ALPHA"

Recorded Designator: OES ST 1800-A  
Radio Call Sign: "OES strike team eighteen hundred-ALPHA"

## **STRIKE TEAM EXAMPLES**

### SINGLE AGENCY STRIKE TEAMS

Resources - Engines type 3 from San Bernardino National Forest.  
Three Letter Designator - BDF  
Number - 6601  
Kind / Type - C (Engine type 3)  
Resource Designation Format - BDF ST 6601-C  
Radio Call Sign - "San Bernardino Forest strike team sixty-six zero one "CHARLIE"  
Number Assigned By - San Bernardino National Forest.

### OES STRIKE TEAMS

Resources - Engines type 1, all OES owned equipment from Mutual Aid Region I.  
Three Letter Designator - OES  
Number - 1801  
Kind / Type - A (Engine type 1)  
Resource Designation Format - OES ST 1801-A  
Radio Call Sign - "OES strike team eighteen zero one ALPHA "  
Number Assigned By - Region I Fire and Rescue Coordinator.

### MIXED AGENCY STRIKE TEAMS FROM SAME OPERATIONAL AREA

Resources - Engines type 1, from Ventura County Operational Area.  
Three-Letter Designator - XVE  
Number - 1551  
Kind / Type - A (Engine type 1)  
Resource Designation Format - XVE ST 1551-A  
Radio Call Sign - "Ventura County Op Area strike team fifteen fifty-one ALPHA"  
Number Assigned By - Ventura County Operational Area Fire and Rescue Coordinator.

### DIFFERENT OPERATIONAL AREAS WITHIN A MUTUAL AID REGION

Resources - 3 Engines type 1, from Los Angeles Co. Operational Area 'A.' (Region I) 2  
Engines type 1, from other Los Angeles Co. Operational Areas. (Region I)  
Three-Letter Designator and Number - Would be determined by the operational area  
providing the strike team leader.  
Number - 1075  
Kind / Type - A (Engine type 1)  
Resource Designation Format - XLA ST 1075-A  
Radio Call Sign - "LA County Op Area A strike team ten seventy-five ALPHA"

DIFFERENT ADMINISTRATIVE UNITS (SINGLE AGENCY)

USFS and CAL FIRE strike teams may be formed from more than one forest or CAL FIRE administrative unit. Such a combination would not be considered mixed agency resources.

U.S. Forest Service

Resources - 3 Engines type 3 and strike team leader from the Angeles National Forest.  
2 Engines type 3, from the San Bernardino National Forest.

Three-Letter Designator - ANF

Number - 1601

Kind / Type - C (Engine type 3)

Resource Designation Format - ANF ST 1601-C

Radio Call Sign - "Angeles Forest Strike Team sixteen zero one CHARLIE"

Number Assigned By - Angeles National Forest

California Department of Forestry and Fire Protection

Resources - 3 Engines type 3 and strike team leader from the Riverside Unit 2  
Engines type 3 from the San Diego Unit

Three-Letter Designator – RRU

Number - 9310

Kind / Type - C (Engine type 3)

Resource Designation Format - RRU ST 9310 C

Radio Call Sign - "Strike Team ninety-three ten CHARLIE"

Number Assigned By - CAL FIRE Riverside Unit

INCIDENT FORMED STRIKE TEAMS

Resources - 1 Dozer type 2, privately owned  
1 Dozer type 2, from Los Angeles County FD

Three-Letter Designator - "CREST" (Incident Name)

Number - 1

Kind / Type - L (Dozer type 2)

Resource Designation Format - CREST ST 1-L

Radio Call Sign - "Crest Strike Team One LIMA"

Number Assigned By - Resources Unit at the "Crest" Incident

## **ASSIGNING TASK FORCE DESIGNATIONS**

### **AGENCY FORMED TASK FORCE**

Resources - 1 Engine type 1 and task force leader from Los Angeles County FD

1 Dozer type 2, from Los Angeles County FD

1 Crew type 1, from Los Angeles County FD

Three-Letter Designator - LAC

Number - 1102

Resource Designation Format - LAC TF 1102

Radio Call Sign - "Los Angeles County Task Force eleven zero two"

Number Assigned By - Los Angeles County Area B Operational Area Fire and Rescue Coordinator.

### **INCIDENT FORMED TASK FORCE**

Resources - 1 Engine type 1, from LAC

1 Engine type 1, from LFD

1 Dozer type 1, from LAC

Three Letter Designator - "SAGE" (Incident Name) Number - 1

Resource Designation Format - SAGE TF 1

Radio Call Sign - "Sage Task Force one"

Number Assigned By - Resources Unit at the "Sage" Incident

## **REASSIGNING RESOURCES**

Reassignment of resources from one incident to another will occur with the consent of the agency(s) owning the resource(s).

Reassignment of Cal OES resources will be coordinated through the on-scene Cal OES Fire and Rescue Chief Officer, the local jurisdiction Agency Representative, or the authorized representative or the Cal OES Fire & Rescue Duty Officer.

## **USE OF SEQUENTIAL NUMBERS**

Initial numbering of grouped resources will be assigned sequentially from the mutual aid area or individual agency block of numbers. It is recommended that numbers not be re-used on any single incident or during a period of multi-incident activity. Example: A strike team may be formed and numbered for a specific incident, then demobilized and released. Re-use of that number during the same period of activity should be avoided. During a period of high activity, it is recommended that all numbers in any block be used before recycling sequential numbers.
