(BK) GPH, GPH Plus, DPH	(BK) Changing Groups: Press #, the group number, ENT	(BK) GPH CMD

(BK) Adding/Deleting Scan List Channels (scan/pri must be off)
"ENT" to add channel to Scan
"CLR" to delete channel to Scan List
Turn Scan on/off
Toggle SCN and PRI on (turn both on at the same time)

(BK) KEYPAD LOCKS: When SCAN and PRI are on, keypad is locked
Pressing **FCN** locks the keypad on some radios

GPH, GPH+, DPH
TONE Select (SCN and PRI must be off).
Press the number corresponding to the required tone.

IMPORTANT (GPH, GPH+, DPH):
The tone must be selected **EACH** time a channel is changed (for channels that require a tone).

(BK) CG-SQ Knob
Turning this CCW until clicks tone (password) protects the radio – do not use in this position. Rotate knob until static is heard and then back if off slightly.

GPH-CMD, Kenwood
**TONE Select** (SCN and PRI must be off). Press the number corresponding to the required tone.

IMPORTANT (GPH-CMD and Kenwood)
You can only select tones on channels that have more than one tone – channels with single tone access are locked.
